District Superintendent's Report

During this school year, the district office staff, administration, teachers, and students have been settling into brand new, state of the art campuses.

The district began its second year of implementing a new curriculum, and we believe this curriculum will help move the school district forward in its academic progress. The curriculum affords teachers opportunities for professional development in standards based instruction.

One of the district's main objectives over the past year was to recruit highly qualified teachers to assist with the implementation of programs. Our staff members have begun to infuse technology into instructional delivery.

Benchmark and MAP testing have helped instructional staff to identify student weakness. Teachers and administrators use the data from these tests to inform classroom instruction; parents have been an integral part of this process. Ongoing communication with them through academic plans and parent conferences has empowered parents to participate in the education of their children.

The Jasper County School District staff are passionate about educating the children we serve, and are totally committed to raising student achievement across the board. It is the goal of Jasper County School District to produce learners who are prepared for the global market.

Dr. Delacy Sanford, Superintendent

Jasper School District 02/17/09-270
